OUR PUPIL SAFEGUARDING GROUP

What we do

- Support pupils in school with their work and also with home work.
- Give advice on any issues that they may have if they feel speaking to a member of staff is embarrassing.
- Most importantly though, our role in school is making sure everyone is safe and happy.

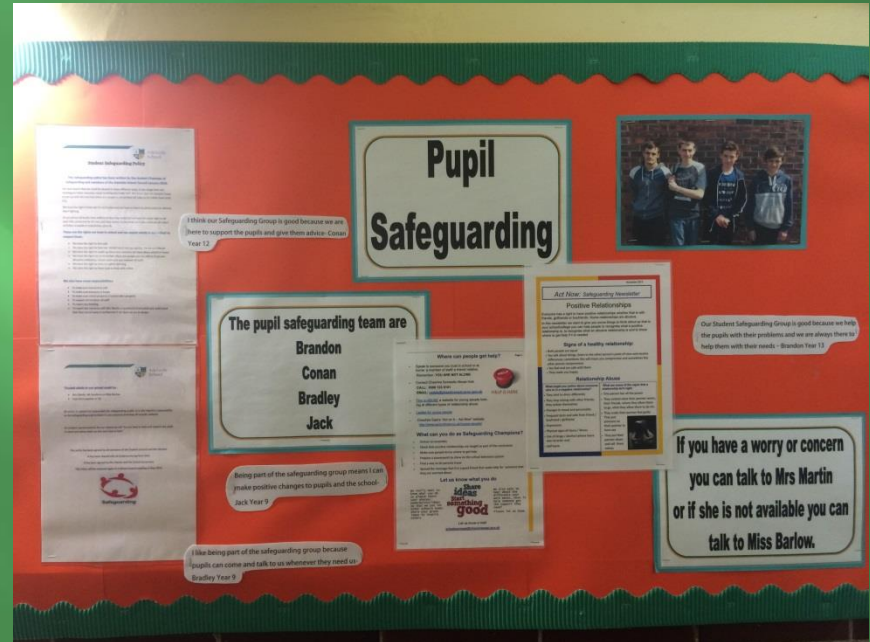

‘We take pride in knowing that the pupils are safe and happy. They know we will always be there to help them no matter how small they think the issue is’ Brandon year 13

Our pupil Safeguarding Policy

We have done whole school assemblies to explain who we are and what our role in school is so pupils can recognise us.

There is a copy of our Policy in every classroom so pupils can read it at any point and a display board in the main corridor.

Our policy states our rights and responsibilities within school.

Our Policy outlines our expectations of the adults in school.

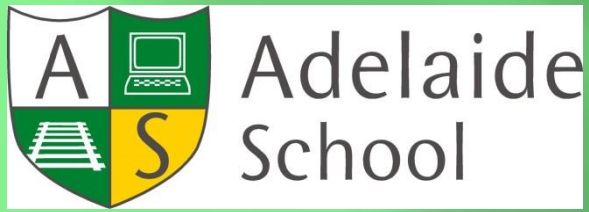

Adelaide
School

We have even
been into our
Parent Partner
meeting to make
them aware of
us and our job.

We review the policy during the school
council meetings to make sure that
everyone is happy with it and we are not
missing any vital information.

As student representatives for our school we strive to ‘try our best to help and support any pupil in need.’

We take pride in knowing that all the pupils are safe and happy within school and they know we are always there to help if they’re not.

The staff at Adelaide School support our group by encouraging the pupils to get involved by creating posters etc. during PSHE lessons.
